

Barren Hill Beers for Opening Night:

Belgian Golden - Inspired by Duvel, the classic Belgian Golden. A beer that is well balanced as the hops, malt & the spicy yeast show themselves with each sip. Belgian Pilsner Malt & Slovak Stryian Golding hops

7.2% ABV Medium Hop Bitterness 16oz -Chalice or Pint \$5.5 growler 64oz \$18

Biere De Octobre - A French Country Biere de Garde, typically produced in Nord & Pas de Calais. A malty, earthy beer that is dominated by the malt sweetness up front, but dry in the finish. French Malt, French Strisselpalt & Aramis hops Basically our take on an October fest – Biere de Garde brewed with lager yeast

6.75% ABV Low Hop bitterness 16oz pint \$5 growler 64oz \$15

German Pale Ale (pre prohibition) - An American Pale ale style with German hops. What we'd imagine the German brewers in Philadelphia were producing in the late 1800s. Smooth hoppiness, as we used Hallertau, Opal, & Brewer's Gold hops from Germany. For a twist, we aged the beer on American Cherry.

4.8% ABV Medium Hop Bitterness 16oz Pint \$5 growler \$15

Pilsner IPA - a hybrid style also known as an Imperial Pilsner. We made a traditional German Pilsner, with a bit more malt & a generous amount of hops. We used German Pearle & Hersbucker hops. Instead of being intensely bitter, we added a ton of hops towards the end of the boil for flavor. Then we added a pound per barrel of Hersbucker hops for aroma,

6.4% ABV Medium Hop Bitterness 16oz Pint \$5 Growler \$15

Belgian IPA Single Hop Series - Galaxy - a true hybrid - Belgian Yeast, Australian hops & American Barley. There is a lot going on in the glass, as you have the spicy Belgian yeast & intense Galaxy hops fighting for attention. This is the first in a series of single hopped Belgian IPA's. The Galaxy hops show a strong tropical fruit flavor of mango & passion fruit.

7.1% ABV High Hop Bitterness 16oz Pint \$5.5 growler \$18

Berliner Double Weisse - a rarely brewed style a few years ago, it's now a favorite of many. A traditional sour, but refreshing German Wheat beer. Most Berliner beers are about 2.8 to 3.0% ABV, we decided to double it. Clean bright sourness & great wheat flavors

5.8% ABV Low Hop Bitterness 16oz Pint \$5 growler \$15

Down Under Triple- Belgian Triple, Brewed exclusively with New Zealand Pacific jade hops, which bring out a citrus and black pepper flavor. Belgian Yeast brings a distinct Banana aroma. Deceivingly light bodied.

9.9% ABV Medium Hop Bitterness 10.5oz tulip \$5 growler \$18

Edel-Helles- A German Helles, a perilously drinkable beer for those who prefer something on the "lighter" side. Edel in German is defined as noble, and the hops are Noble Hersbrucker hops from Germany.

4.8ABV Low hop bitterness 16oz pint \$5 growler \$15

Burton IPA - Burton is famous for the water, and we've recreated the beer and the water. All English malts, and East Kent Golding hops. English IPA's are not quite as hop forward as American IPA's, as many would consider this a pale ale.

6.2 ABV Medium hop bitterness 16oz pint \$5 growler \$15

Baltic Porter- A Finnish Porter, that's fermented with Lager yeast, instead of Ale. This fermentation gives the beer a remarkably smooth character, and is aged for 8 weeks. A bit stronger than most porters, some would call it an Imperial Porter.

8 ABV low/Medium Hop Bitterness 16oz Pint \$5.5 growler \$18

Black Rye Double IPA- A double IPA with a few twists, the rye malt brings a distinct spicy character, and the American Hops bring a bold citrus/ woody character.

9.2 ABV High Hop Bitterness 10.5oz tulip

Imperial Vanilla Stout- Perfect for the onset of the colder nights, we use 12 different malts to create a complex, strong malt forward beer. Real Vanilla beans used from Madagascar, Indonesia, and Mexico.

9.7 ABV low/Medium Hop Bitterness 10.5oz tulip \$5 growler \$18
